Bachelor of Fine Arts (BFA)

Introduction:

Bachelor of Fine Arts (BFA) is a professional field of study and practice based on varied courses and lessons designed to communicating concept, attitude and information through the service, or presentations of manual, printed, environmental, experimental or digital mode. Graduates of this course create visual languages that address many needs of the society – be it warning labels to complex interactive interfaces, paintings, sculptures to site specifics for Aesthetics pleasure or teaching in school, colleges to participating in curriculum development and policy makings.

Bachelor of Fine Arts is one of the most needed undergraduate degrees to produce creative individuals who not only serve as an individual to produce required art works and services but also to produce visionaries who with their avant-garde approaches guide and remold the visual attitude of the community and the country. Using intense studio practice, research, critical thinking, creativity, and a range of problem solving principles, our graduates will - address complex visual communication problems within the creative capacity and requirements, be able to produce remarkable work of art to uplift communal Aesthetics attitude, render service for in related fields and be a responsible person.

Aims

The main aims of the BFA course are

1. To develop students' creative, original and innovative approaches in creating art and design.
2. To foster in them a capacity to contribute in contemporary visual culture by producing original work of art, design and other related contributions.
3. To extend their knowledge and understanding of Nepalese Art and the art of other civilizations.
4. To introduce students to the different disciplines of Fine Arts as a professional, service and career-oriented genre or to assist for their further trainings in Art.
5. To introduce a creative world of visual art to address many visual related issues of the society or educate students in both creative and analytical thought combined with a standard education system, research and practical skills.
6. To produce versatile and original innovative visual artists that are marketable in the international bazaar.

Learning and teaching methodologies:

The BFA is a fulltime academic degree course supervised by a number of experts along with regular tutors. Every individual subject will be instructed and managed by experts of the concerned areas. The frequent visits to different related experts, organizations and institutions will be a part of regular academic calendar. Thus this course is intended to intensive class tutorials, continuous studio practices, home assignments, research and writings and self-motivated or guided projects.

The main teaching methodologies are -

1. Studio-based taught session demonstrations and presentations covering different aspects of Fine Art under guidance of freelance and professional artists and art educators.
2. Intensive practical sessions as the continuation of their studio tutorials.
3. Theory tutorials with interactive sessions using multimedia projection, interdisciplinary teaching methodology and as supplementary modules to the main practical components.
4. Competitive and innovative projects as self-motivated or tutored assignments.
5. Regular visit to experts, organizations, internship and apprenticeship, research projects, community and social based projects and developing liaison with professionals for the future purposes.

Learning Outcomes:

By the end of this degree course students should be able to,

1. Work efficiently with the techniques and resources with their own clarity of thoughts to produce desired, innovative and original art and designs that are aesthetically challenging and visually communicating.
2. Demonstrate understanding of every process of visual art system including in-depth understanding of professional practice.
3. Reveal sound technical skills and ability to accept challenges, explore and experiment and take control of their own work and drive it into new directions.
4. Demonstrate their learning in the theory classes to articulate their practical artwork of their own and others. They will be able to tackle universal problems of artistic approaches and different Aesthetics issues.
5. Learn to select what is valuable in current and past styles and techniques so as to evolve one's creative language.
6. Meet our targeted objectives as per the requirement of BFA degree course.

Duration

The course will be of 4 years duration, each year consisting of two semesters.

Eligibility

Higher Secondary (+2), A level or Intermediate level qualification in any discipline with minimum 40% aggregate
